Same Day Mammography

Why wait days or even weeks for your test results? We go the extra mile so you can have your results before you leave. If we see something abnormal we can do the additional imaging during your visit. We offer convenience and peace of mind, because we care.

Ask your physician to write your prescription
Screening Mammography with Additional Views and/or Breast Ultrasound (if indicated).

**THIS PROGRAM IS AVAILABLE
WEEKDAYS 7:30AM TO 6:30PM**

Here's How Our Program Works:

- Screening mammogram patients may wait for their results, which are available within 30 minutes of the exam.
- Patients with negative results will receive a NORMAL card and will have the opportunity make an appointment for the following year. Just ask at the front desk.
- Patients with a positive finding will have the option to receive additional imaging provided their referral contains the proper ordering information.
 - Our radiologist will speak directly with you and the additional imaging will be provided.
 - If authorization has not been provided, then an appointment will be made immediately for a follow-up appointment.
- Results are always mailed to you within one week of your visit.
- Your report is faxed to your referring physician within 24 hours of your visit.
- An appointment reminder will be sent to you 4 to 6 weeks prior to your next scheduled visit.
- Patients with no scheduled appointment will receive an annual reminder letter.

At Quakerbridge Radiology you always have the option to speak with the radiologist in addition to the technologist about your study.

Our program provides peace of mind. Screening + Same Day Results = Reduced Anxiety. Why would you want to go anywhere else?
